 INFORMATION ON THE NATIONAL EDUCATION SYSTEM – IN ENGLISH ONLY

OVERVIEW OF THE NATIONAL HIGHER EDUCATION SYSTEM

The admission to higher education is based on the *diploma de bacalaureat* (12 years of study).

In all accredited Romanian universities it is used the European Credit Transfer System (ECTS).

After graduating the short term higher education (180 ECTS) and having passed the final exams, *diploma de absolvire* is obtained.

After graduating the long term higher education and having passed final exams one can obtain: *diploma de inginer* (300 ECTS), *diploma de arhitect* (360 ECTS) or *diploma de licență* in all other fields (240-360 ECTS).

For the authorized and accredited specializations, university programs for distance learning can be organized.

In Romania, the higher education system is organized in an open way; the graduates of the short term higher education can continue there studies at the long term higher education.

*Etudes approfondies* are organized in 2 or 3 semesters (60-90 ECTS) and they are done in the same field of the diploma obtained after long term higher education. At the end, the *Studiile aprofundate* are finalized with a dissertation, the graduates are receiving *diploma de studii aprofundate*.

*Master studies* last for 2 to 4 semesters (60-120 ECTS) and they are done either in the field of the *diploma de licență* or in other fields of studies. *Master studies* are finalized by a dissertation and the graduates receive *diploma de master*.

The doctoral studies are finalized by a research thesis, graduates obtain the *diploma de doctor*.

*The academic postuniversity studies* are organized as independent institutions in our country and offer training programs, which last for 2 or 4 semesters, in order to perfect the studies obtained by the long term higher education diploma. The studies are finalized by a dissertation. The graduates are receiving *diploma de studii academice postuniversitare*.

*Postuniversity specialization studies* can be followed by the graduates who obtained the diploma after long term higher education. The duration, curriculum and the finalization method of these studies are approved by the university senates. The graduates are receiving the *diploma de studii postuniversitare de specializare*.

The universities are also offering life long training programs according to the market demand and the needs of the professional reconversion.

In the health field, for doctors, specific programs are provided in order to obtain the specialist certificate which is issued by the Ministry of Health.
