

# Google Developer Student Clubs

## Overview

Google Developer Student Clubs are university based community groups for students interested in Google's developer technology. Students from all undergraduate or graduate programs with an interest in growing as a developer are welcome. By joining a GDSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community.

Events Annually

### Connect

Meet other students on campus interested in developer technologies with diverse backgrounds and those from different majors.

### Learn

Learn about a wide range of technical topics through hands-on workshops, in-person and virtual training, and project building activities.

### Grow

Apply your new learnings and connections to build great products, advance your skills, career and network, and help others learn as well.

## Developer Student Club Leads

Google Developer Student Club Leads are passionate leaders who are dedicated to helping their peers learn and connect.

### Roles

#### Start a Club

Work with your university to start a student club. Select a core team and faculty advisor to support.

#### Host a Workshop

Grow student knowledge on developer products and platforms through hands-on workshops and events.

#### Build Projects

Identify and solve local projects through peer-led learning.

### Benefits

#### Professional Growth

Access to community management training and invitations to select Google events

#### Network Growth

Access to a global network of 4,000+ community organizers, industry experts, and Googlers

#### Community Learning

Dedicated support, infrastructure and access to a community event platform.
