

Specialization: Mathematics and Computer Science
Course: Advanced Programming Methods

Seminar Rules 2020-2021

- During each seminar we will solve problems together. The activity during the seminars will count for 5% of the final mark.
- You must [attend at least 5 seminars](#) in order to be allowed to take the examination this academic year.
- You must attend seminar activities with your own subgroup.
- You must be present and participate during the entire seminar in order to consider it as attendance. Just entering a meeting, without participation, is not considered as attendance.
- You must have the camera open during the seminar.
